AUTHOR INDEX

VOLUME 31 NUMBERS 1-12

A

Abumrad, Naji. See *Hill et al.* 407
Adams, Steven P. See *Heuckeroth et al.* 1121
Aggerbeck, L. P. See *Bouma et al.* 1
Ailhaud, Gérard. See *Pradines-Figuères et al.* 1283
——. See *Pradines-Figuères, Vannier, and Ailhaud* 1465
Åkerblom, H. K. See *Lehtimäki et al.* 487
Åkerlund, Jan-Erik, and **Ingemar Björkhem.** Studies on the regulation of cholesterol 7α-hydroxylase and HMG-CoA reductase in rat liver: effects of lymphatic drainage and ligation of the lymph duct 2159
Alaupovic, Petar. See *Dashti, Smith, and Alaupovic* 113
Albee, Deborah. See *Ishida, Albee, and Paigen* 227
Albers, John J. See *Ettinger et al.* 1099
Albertazzi, Laura. See *Tarugi et al.* 417
Alexson, Stefan E. H. See *Diczfalusy and Alexson* 307
Al-Shurbaji, Ayman. See *Skorve et al.* 1627
Alvarez, Juan G., Bayard T. Storey, Mark L. Hemling, and **Robert L. Grob.** High-resolution proton nuclear magnetic resonance characterization of seminolipid from bovine spermatozoa 1073
Amigo, Ludwig, Carmen Covarrubias, and **Flavio Nervi.** Rapid isolation of vesicular and micellar carriers of biliary lipids by ultracentrifugation 341
Andre, Marc. See *Chautan et al.* 2201
Angelico, Mario See *Cohen, Angelico, and Carey* 55
Angelin, Bo. See *Reihnér et al.* 2219
Angellotti, M. A. See *Roda et al.* 1431
Antonian, Lida, Siddhartha Deb, and **William Spivak.** Critical self-association of bile lipids studied by infrared spectroscopy and viscometry 947
Aoki, Takahiko. See *Hidaka et al.* 881
Aoyama, Toshifumi, James P. Hardwick, Susumu Imaoka, Yoshihiko Funae, Harry V. Gelboin, and **Frank J. Gonzalez.** Clofibrate-inducible rat hepatic P450s IVA1 and IVA3 catalyze the ω- and (ω-1)-hydroxylation of fatty acids and the ω-hydroxylation of prostaglandins E_1 and $F_{2\alpha}$ 1475
Applebaum-Bowden, Deborah. See *Auerbach, Parks, and Applebaum-Bowden* 738
Arad, Yadon, Rajasekhar Ramakrishnan, and **Henry N. Ginsberg.** Lovastatin therapy reduces low density lipoprotein apoB levels in subjects with combined hyperlipidemia by reducing the production of apoB-containing lipoproteins: implications for the pathophysiology of apoB production 567
——. See *Ramakrishnan et al.* 1031
Aramaki, S. See *Gibson et al.* 515
Arbeeny, Cynthia M. See *Sinha et al.* 1219
Archibold, Ronald C. See *DeLamatre et al.* 191
Ariga, Toshio. See *Hozumi et al.* 335
Arita, Hitoshi. See *Takamura et al.* 709
Armstrong, Victor W., Bärbel Harrach, Horst Robenek, Marion Helmhold, Autar K. Walli, and **Dietrich Seidel.** Heterogeneity of human lipoprotein Lp[a]: cytochemical and biochemical studies on the interaction of two Lp[a] species with the LDL receptor 429
Asiedu, Daniel. See *Skorve et al.* 1627
Asins, Guillermina. See *Serra, Asins, and Hegardt* 919
Assefbarkhi, Nadere. See *Steinmetz et al.* 1005
Assmann, Gerd. See *Steinmetz et al.* 1005
Athias, Anne. See *Gambert et al.* 1199
——. See *Lagrost et al.* 1569
Atkinson, David. See *Kodali, Atkinson, and Small* 1853
——. See *Reisinger and Atkinson* 849
——. See *Walsh and Atkinson* 1051
Atmeh, Ragheb. Isolation and identification of HDL particles of low molecular weight 1771
Attie, Alan D. See *Brasaemle and Attie* 103
——. See *Poernama et al.* 955
Auerbach, Bruce J., John S. Parks, and **Deborah Applebaum-Bowden.** A rapid and sensitive micro-assay for the enzymatic determination of plasma and lipoprotein cholesterol 738
Auwerx, Johan. See *Staels et al.* 1211

B

Baer, Alan N., Patrick B. Costello, and **Floyd A. Green.** Free and esterified 13(R,S)-hydroxyoctadecadienoic acids: principal oxygenase products in psoriatic skin scales 125
Bagdade, John D., James T. Lane, Neil Stone, Mary C. Ritter, and **P. V. Subbaiah.** Persistent abnormalities in lipoprotein composition and cholesteryl ester transfer following lovastatin treatment 1263
——. See *Subbaiah et al.* 927
Banerji, B. See *Subbaiah et al.* 927
Baralle, F. E. See *Pagani et al.* 1371
Barcellini-Couget, Sylvie. See *Pradines-Figuères et al.* 1283
Bardes, Elaine S-G. See *Coleman and Bardes* 2257
Barenghi, L. See *Pagani et al.* 1371
Barker, Mary E. See *Erickson et al.* 933
Basra, Harkamal J. K. See *Zhang, Basra, and Steinbrecher* 1361
Bass, Nathan M. See *Riehl, Bass, and Stenson* 773
Batta, A. K. See *Tint et al.* 1301
Bauchart, Dominique. See *Laplaud et al.* 1781
Beltz, William F., Y. Antero Kesäniemi, Nancy H. Miller, Waldo R. Fisher, Scott M. Grundy, and **Loren A. Zech.** Studies on the metabolism of apolipoprotein B in hypertriglyceridemic subjects using simultaneous administration of tritiated leucine and radioiodinated very low density lipoprotein 361
Bendayan, Moise. See *Levy et al.* 1937
Bengtsson-Olivecrona, Gunilla. See *Fager et al.* 1187
Bennett Clark, Susanne. See *Gantz et al.* 163
Ben-Zeev, Osnat, Mark H. Doolittle, Nalini Singh, Chris H. Chang, and **Michael C. Schotz.** Synthesis and regulation of lipoprotein lipase in the hippocampus 1307
Berg, Trond. See *Senoo et al.* 1229

Bengtsson-Olivecrona, Gunilla. See *Fager et al.* 1187
Bennett Clark, Susanne. See *Gantz et al.* 163
Ben-Zeev, Osnat, Mark H. Doolittle, Nalini Singh, Chris H. Chang, and **Michael C. Schotz.** Synthesis and regulation of lipoprotein lipase in the hippocampus 1307
Berg, Trond. See *Senoo et al.* 1229

Berge, Rolf K. See *Skorve et al.* 1627
Berger, G. Michael. See *Cohen and Berger* 597
Bernard, David W. See *Harrison et al.* 2187
Bersot, Thomas P. See *Innerarity et al.* 1337
Beuck, M. See *Schmitz et al.* 1741
Beucler, I. See *Bouma et al.* 1
Bevers, Edouard M. See *Comfurius, Bevers, and Zwaal* 1719
Bhattacharyya, Ashim. See *Dory et al.* 279
Bishop, C. See *Roma et al.* 1753
Bitgood, J. James. See *Poernama et al.* 955
Bittman, Robert. See *Yan and Bittman* 160
Björkhem, Ingemar. See *Åkerlund and Björkhem* 2159
——. See *Boberg, Einarsson, and Björkhem* 1083
——. See *Reihnér et al.* 2219
Bjursell, Gunnar. See *Fager et al.* 1187
Black, Dennis D., Patricia L. Rohwer-Nutter, and **Nicholas O. Davidson.** Intestinal apolipoprotein A-IV gene expression in the piglet 497
——. See *Hayashi et al.* 1613
Blaner, William S. See *Rajan et al.* 8°1
Bloch, Konrad. See *Ramgopal, Zundel, and Bloch* 653
Blomhoff, Rune. See *Senoo et al.* 1229
Boberg, Kirsten Muri, Kurt Einarsson, and **Ingemar Björkhem.** Apparent lack of conversion of sitosterol into C_{24}-bile acids in humans 1083
Bojanovski, Dubo. See *Hoeg et al.* 1761
Bondjers, Göran. See *Fager et al.* 1187
——. See *Hurt, Bondjers, and Camejo* 443
——. See *Hurt-Camejo et al.* 1387
Böttcher, Alfred. See *Nowicka et al.* 1947
Bouchard, Claude. See *Pouliot et al.* 1023
Bouma, M. E., I. Beucler, M. Pessah, C. Heinzmann, A. J. Lusis, H. Y. Naim, T. Ducastelle, B. Leluyer, J. Schmitz, R. Infante, and **L. P. Aggerbeck.** Description of two different patients with abetalipoproteinemia: synthesis of a normal-sized apolipoprotein B-48 in intestinal organ culture 1
Bouzerand-Gambert, Catherine. See *Gambert et al.* 1199
Boveé, Wim M. M. J. See *Groen et al.* 1315
Boyle, Larry E., Larry A. Sklar, and **Alexis E. Traynor-Kaplan.** An HPLC procedure for separating polyphosphoinositides on hydroxylapatite 157
Boyles, Janet K., Lucia M. Notterpek, Mark R. Wardell, and **Stanley C. Rall, Jr.** Identification, characterization, and tissue distribution of apolipoprotein D in the rat 2243
Brandt, I. K. See *Gibson et al.* 515
Brasaemle, Dawn L., and **Alan D. Attie.** Rapid intracellular transport of LDL-derived cholesterol to the plasma membrane in cultured fibroblasts 103
Braughler, J. M. See *Lutzke and Braughler* 2127
Brennan, Stephen O. See *Wardell et al.* 535
Breslow, Jan L. See *Huang, Ripps, and Breslow* 71
Brewer, H. Bryan, Jr. See *Hoeg et al.* 1761
——. See *Roma et al.* 1753
Broekman, M. Johan See *von Schacky et al.* 801
Broock, R. L. See *Gibson et al.* 515
Brüning, Thomas. See *Nowicka et al.* 1173
——. See *Nowicka et al.* 1947
Brunzell, John D. See *Marzetta, Foster, and Brunzell* 975
Burton, Graham W. See *Traber et al.* 675
——. See *Traber et al.* 687
Busch, N., H. Tokumo, and **R. T. Holzbach.** A sensitive method for determination of cholesterol crystal growth using model solutions of supersaturated bile 1903
Bütler, René. See *Xu et al.* 1255

C

Calaf, Raymond. See *Chautan et al.* 2201
Calandra, Sebastiano. See *Tarugi et al.* 417
Camejo, German. See *Fager et al.* 1187
——. See *Hurt, Bondjers, and Camejo* 443
——. See *Hurt-Camejo et al.* 1387
Cardelli, James A. See *Hayashi et al.* 1613
Carey, Martin C. See *Cohen, Angelico, and Carey* 55
——. See *Cohen and Carey* 2103
Carlos, Ruth C. See *Davidson et al.* 899
Carpéné, Christian, Marie-Christine Rebourcet, Colette Guichard, Max Lafontan, and **Marcelle Lavau.** Increased α_2-adrenergic binding sites and antilipolytic effect in adipocytes from genetically obese rats 811
Carroll, Rogayah. See *Schneider et al.* 507
Carty, Joanne. See *Kern et al.* 17
——. See *Querfeld et al.* 1379
Casteels, Minne, Linda Schepers, Paul P. Van Veldhoven, Hendrik J. Eyssen, and **Guy P. Mannaerts.** Separate peroxisomal oxidases for fatty acyl-CoAs and trihydroxycoprostanoyl-CoA in human liver 1865
Catapano, Alberico L. See *Marcovina et al.* 375
Chamuleau, Robert A. F. M. See *Groen et al.* 1315
Chang, Chris H. See *Ben-Zeev et al.* 1307
Chang, N. W., and **P. C. Huang.** Effects of dietary monounsaturated fatty acids on plasma lipids in humans 2141
Chapman, M. John. See *Laplaud et al.* 1781
Chappuis, Charles. See *Dory et al.* 279
Charbonnier, Monique. See *Chautan et al.* 2201
Chautan, Magali, Raymond Calaf, Jeannie Léonardi, Monique Charbonnier, Marc Andre, Henri Portugal, Anne-Marie Pauli, Huguette Lafont, and **Gilles Nalbone.** Inverse modifications of heart and liver α-tocopherol status by various dietary n-6/n-3 polyunsaturated fatty acid ratios 2201
Chen, Jean. See *May et al.* 1683
Chen, Xunsheng. See *Zhang et al.* 551
Cheng, Qi. See *Ontko, Cheng, and Yamamoto* 1983
Chevey, Jean-Michel. See *Moinat et al.* 329
Chino, Haruo. See *Hirayama and Chino* 793
——. See *Lum and Chino* 2039
Cianflone, K. M., Z. Yasruel, M. A. Rodriguez, D. Vas, and **A. D. Sniderman.** Regulation of apoB secretion from HepG2 cells: evidence for a critical role for cholesteryl ester synthesis in the response to a fatty acid challenge 2045
Clandinin, Michael T. See *Garg, Thomson, and Clandinin* 271
Clark, Ronald W. See *Parker et al.* 1271
Cohen, David E., Mario Angelico, and **Martin C. Carey.** Structural alterations in lecithin-cholesterol vesicles following interactions with monomeric and micellar bile salts: physical-chemical basis for subselection of bilary lecithin species and aggregative states of biliary lipids during bile formation 55
——, and **Martin C. Carey.** Rapid (1 hour) high performance gel filtration chromatography resolves coexisting simple micelles, mixed micelles, and vesicles in bile 2103
Cohen, Jonathan C., and **G. Michael Berger.** Effects of glucose ingestion on postprandial lipemia and triglyceride clearance in humans 597
Cohn, Jeffrey S. See *Lichtenstein et al.* 1693
Cole, Thomas G. See *Jiao et al.* 467
Coleman, Rosalind A., and **Elaine S-G. Bardes.** Perinatal hepatocyte/hepatoma hybrids: construction of clones that express the developmentally regulated monoacylglycerol acyltransferase activity 2257

Collins, James M., Raymond N. Dominey, and **W. McLean Grogan.** Shape of the fluidity gradient in the plasma membrane of living HeLa cells 261
Comfurius, Paul, Edouard M. Bevers, and **Robert F. A. Zwaal.** Enzymatic synthesis of phosphatidylserine on small scale by use of a one-phase system 1719
Connelly, Phillip W. See *Huff et al.* 385
Connor, William E., Martha Neuringer, and **Don S. Lin.** Dietary effects on brain fatty acid composition: the reversibility of n-3 fatty acid deficiency and turnover of docosahexaenoic acid in the brain, erythrocytes, and plasma of rhesus monkeys 237
——. See *Harris et al.* 1549
Contreras, M. See *Lazo et al.* 583
Cook, Mark E. See *Poernama et al.* 955
Cooper, Allen D. See *Ellsworth et al.* 1399
——. See *May et al.* 1683
Cornwell, David G. See *Zhang et al.* 551
Corr, Peter B. See *DaTorre, Corr, and Creer* 1925
Costello, Patrick B. See *Baer, Costello, and Green* 125
Covarrubias, Carmen. See *Amigo, Covarrubias, and Nervi* 341
Creer, Michael H. See *DaTorre, Corr, and Creer* 1925
Cuthbert, Jennifer A., and **Peter E. Lipsky.** Mitogenic stimulation alters the regulation of LDL receptor gene expression in human lymphocytes 2067

D

Dahlen, G. See *Lehtimäki et al.* 487
Dangremont, Valérie. See *Lagrost et al.* 1569
Dani, Christian. See *Pradines-Figuères et al.* 1283
Dargel, R. See *Plonné et al.* 747
Dashti, Nassrin, Elizabeth A. Smith, and **Petar Alaupovic.** Increased production of apolipoprotein B and its lipoproteins by oleic acid in Caco-2 cells 113
DaTorre, Steven D., Peter B. Corr, and **Michael H. Creer.** A sensitive method for the quantification of the mass of inositol phosphates using gas chromatography–mass spectrometry 1925
Daugherty, Alan. See *Parhofer et al.* 2001
Davidson, Nicholas O., Ruth C. Carlos, Helayne L. Sherman, and **Rick V. Hay.** Modulation of apolipoprotein B-100 mRNA editing: effects on hepatic very low density lipoprotein assembly and intracellular apoB distribution in the rat 899
——. See *Black, Rohwer-Nutter, and Davidson* 497
Davignon, Jean. See *Innerarity et al.* 1337
——. See *Mailly, Davignon, and Nestruck* 149
Davis, Roger A. See *Lang and Davis* 2079
——. See *Leighton et al.* 1663
Davis, W. Bruce. See *Zhang et al.* 551
Deb, Siddhartha. See *Antonian, Deb, and Spivak* 947
Deines, Michael. See *Leighton et al.* 1663
de Jersey, John. See *Smith et al.* 1993
de Knijff, P. See *Smit et al.* 45
DeLamatre, John G., T. G. Sarphie, Ronald C. Archibold, and **Conrad A. Hornick.** Metabolism of apoE-free high density lipoproteins in rat hepatoma cells: evidence for a retro-endocytic pathway 191
Demosky, Stephen J., Jr. See *Hoeg et al.* 1761
Denke, Margo A. See *Grundy and Denke* 1149
Derksen, Arie. See *Gantz et al.* 163
Després, Jean-Pierre. See *Pouliot et al.* 1023
Diczfalusy, Ulf, and **Stefan E. H. Alexson.** Identification of metabolites from peroxisomal β-oxidation of prostaglandins 307
DiGirolamo, Mario. See *Maroni et al.* 1703
Dojo, Shinya. See *Ohtani et al.* 1413
Dominey, Raymond N. See *Collins, Dominey, and Grogan* 261
Doolittle, Mark H. See *Ben-Zeev et al.* 1307
——. See *LeBoeuf et al.* 91
Dory, Ladislav, Ashim Bhattacharyya, Jack Strong, and **Charles Chappuis.** Hepatic low density lipoprotein receptors, HMG-CoA reductase, and plasma lipids and apolipoproteins in high- and low-responding rhesus monkeys: effect of cholestyramine treatment 279
Dowling, R. H. See *Gleeson, Murphy, and Dowling* 781
Downing, Donald T. See *Wertz and Downing* 1839
Drevon, Christian A. See *Skorve et al.* 1627
Ducastelle, T. See *Bouma et al.* 1
Durand, Denys. See *Laplaud et al.* 1781

E

Eckhoff, Christian, and **Heinz Nau.** Identification and quantitation of all-*trans*- and 13-*cis*-retinoic acid and 13-*cis*-4-oxoretinoic acid in human plasma 1443
Edens, Neilé K., Rudolph L. Leibel, and **Jules Hirsch.** Lipolytic effects on diacylglycerol accumulation in human adipose tissue in vitro 1351
——, **Rudolph L. Leibel,** and **Jules Hirsch.** Mechanism of free fatty acid re-esterification in human adipocytes in vitro 1423
Egbers, Peter H. M. See *Groen et al.* 1315
Ehlenz, Klaus. See *Steinmetz et al.* 1005
Ehnholm, C. See *Lehtimäki et al.* 487
Einarsson, Kurt. See *Boberg, Einarsson, and Björkhem* 1083
——. See *Reihnér et al.* 2219

SUBJECT INDEX

VOLUME 31 NUMBERS 1-12

A

Abetalipoproteinemia
Description of two patients with 1
Formation of cholesteryl esters in 927
Synthesis of normal-size apoB-48 in intestinal organ culture 1
ABL: *see* **Abetalipoproteinemia**
ACAT: *see* **Acyl coenzyme A:cholesterol acyltransferase**
Acyl coenzyme A:cholesterol acyltransferase
Hepatic activity, in patients with cholesterol gallstones 1993
Inhibition of, effect of on interaction of HDL with isolated human intestine epithelial cells 1821
Acyl-CoA dehydrogenase, medium chain: Deficiency of 763
Adipocytes
Electronic determination of size and number of unfixed populations 1703
From genetically obese rats, α_2-adrenergic binding sites in 811
Human, mechanism of FFA re-esterification, in vitro 1423
LPL storage in 1467
Adipokinetic hormone: Role of in formation of low density lipophorin 2039
Adipose tissue
Effect of dietary fat on lipogenic enzyme mRNA levels 623
Human, diacylglycerol accumulation in vitro, lipolytic effects on 1351
Mechanism of re-esterification in vitro 1423
α_2-Adrenergic binding sites: In adipocytes from genetically obese rats 811
7β-Alkyl chenodeoxycholic acid analogs
Effect on cholesterol metabolism in the hamster 1015
Metabolism in the hamster 1015
N-Alkylcarbamates: Inhibition of neutral cholesteryl ester hydrolase in hepatoma cells 2187
Allele frequencies
Of apoE 487
Of hypervariable elements of the apoB gene 659
Amino acid sequence
Of LDL receptor-binding domains of apoB 1109
Of rabbit apoD 2057
Aminopropyl columns: Separation of lipid classes on 2285
Amniotic fluid: Bile acids in 1089
Angiokeratoma corporis diffusum: Glycolipids in 335
Anthroyloxy fatty acids: In study of fluidity gradient in plasma membranes 261
Antioxidants: Level in native porcine LDL subfractions 1965
Apheresis techniques: Biological activity of LDL derived from 2277
Apolipoprotein(s)
HDL, retroendocytic pathway for in rat hepatoma cells 191
In intestinal lymph of the preruminant calf 1781
In mice fed synthetic high- and low-fat diets 859
Of African green monkeys, effect of dietary fatty acids on 1873
Plasma, in rhesus monkeys, effect of cholestyramine 279
Produced by Caco-2 cells 113
Apolipoprotein[a]
Lp[a] levels and LDL receptor function, relationship between 633
Phenotype: relationship with plasma cholesterol, apoB, and Lp[a] 633
Polymorphic forms of 603
Apolipoprotein A-I
Deficiency syndrome in chickens 955
Effect on cholesterol crystal growth in model bile 1903
Electroimmunoassay of 1613
Immunochemical characterization of six monoclonal antibodies 375
In HDL particles of low molecular weight 1771
In prebeta-migrating lipoproteins 227
Measurement of kinetics 1693
Metabolism in familial hypolipoproteinemia 1753
mRNA, cellular and tissue, precise quantitation of 727
mRNA, determination of absolute level in human hepatoma cell lines 1141
Prevention of aggregation of LDL by 645
Rate of synthesis in different strains of mice 91
Transport in intestinal lymph of the rat 1613
Apolipoprotein A-I gene: PstI, RFLP of 1753
Apolipoprotein A-I gene promoter polymorphism: Association with hyperalphalipoproteinemia 1371
Apolipoprotein A-II
In HDL particles of low molecular weight 1771
Rate of synthesis in different strains of mice 91
Apolipoprotein A-IV
Intestinal, gene expression in the piglet 497
Intestinal, synthesis in the piglet 497
Polymorphic locus in the baboon 131
Transport in intestinal lymph of the rat 1613
Apolipoprotein B
Complex with apo[a], physical, immunochemical, and binding properties 909
Domain that binds to LDL receptor, cross-species comparison 1109
Flux, in the fetal rat 747
Forms in the chick 417
Gene polymorphism in noncoding regions, molecular basis of 71
Intracellular processing 1255
Intracellular, effect of alteration to hepatic apoB mRNA editing on distribution of 899
Lipoproteins containing, characterization by preparative free flow isotachophoresis 1173
Metabolism in hypertriglyceridemic subjects 361
mRNA, decrease in editing by fasting 1663
mRNA, determination of absolute level in human hepatoma cell lines 1141
mRNA, editing of in differentiated Caco-2 cells 695
Newly synthesized, distribution among hepatic subcellular membrane fractions 899

Production in combined hyperlipidemia 567
Secretion from HepG2 cells, regulation of 2045
Secretion from the liver, effect of dietary fish oil on 455
Signal peptide insertion/deletion polymorphism, involved in serum triglyceride levels 1255
Small molecular weight, decrease in secretion by rat hepatocytes by fasting 1663
Synthesis and secretion in the chick 417
Synthesis in Caco-2 cells 113
Turnover in CHL patients 567
Unfolding, colorometric and spectroscopic investigation of 1051
VLDL, nonuniform labeling of in kinetic studies 1031
Apolipoprotein B-containing lipoproteins: Effect on molecular species of cholesteryl esters formed in ABL 927
Apolipoprotein B gene: Hypervariability in a minisatellite region in patients with CHD 659
Apolipoprotein B-100:
A mutation that causes hypercholesterolemia, a review 1337
Epitopes, LDL, alteration in expression of, by modification of core lipids 701
Familial defective, a review 1337
Immunolocalization and synthesis in human intestinal mucosa 1937
In chylomicron particles from thoracic duct lymph 1937
In rough endoplasmic reticulum and Golgi apparatus, in human intestinal mucosal cells 1937
Measurement of kinetics 1693
Metabolism of, in normal and WHHL rabbits 753
mRNA, modulation of editing, effect on hepatic VLDL secretion 899
Synthesis and secretion by the human intestine 1761
Apolipoprotein B-48
Absence in the chick, *Gallus domesticus* 417
In chylomicron particles from thoracic duct lymph 1937
Synthesis and secretion by the human intestine 1761
Synthesis of, in intestinal organ culture 1
Apolipoprotein B-89: In LDL, enhanced clearance from plasma 2001
Apolipoprotein C-II: Variant from a hypertriglyceridemic subject 385
Apolipoprotein D
Identification, characterization, and tissue distribution in the rat 2243
mRNA, cellular localization of, in rhesus monkey tissues 995
mRNA, molecular characterization and tissue distribution in the rabbit 2057
Apolipoprotein D gene: Expression in peripheral tissues 2057
Apolipoprotein E
Allele frequencies 487
Analytical IEF using immobilized pH gradients 149
Cysteine-arginine interchange at residue 112 1503
Distribution among human plasma lipoproteins 1503
Genetic variant in subjects with normolipemic dyslipoproteinemia and hyperlipoproteinemia type III 1005
Localization in rat hepatocytes 1589
mRNA, determination of absolute level in human hepatoma cell lines 1141
Phenotypes, concentrations of serum lipids, apoA-I, and apoB 487
Phenotypes in Finnish youths, a cross-sectional study 487
Polymorphism, relationship with body fatness and plasma lipoproteins in women 1023
Restriction isotyping of 545
Variants, in familial dysbetalipoproteinemia 45
Apolipoprotein E gene: Schematic representation of 45
Apolipoprotein E-3: Effect of on mobilization of VLDL in cultured J-774 macrophages 2133
Apolipoprotein E1
Genetic variant in subjects with normolipemic dysbetalipoproteinemia and type III hyperlipoproteinemia 1005
Homozygosity 1005
Apolipoprotein E2-Dunedin (228Arg→Cys): An apoE2 variant with normal receptor binding activity 535
Apolipoprotein genotype: Effect on LDL profiles in swine 839
Apolipoprotein VLDL-II: In VLDL in the laying hen 507
Apolipoprotein[a]
Lp[a] levels and LDL receptor function, relationship between 633
Polymorphic forms of 603
Apolipoprotein[a] phenotype: Relationship with plasma cholesterol, apoB, and Lp[a] 633
Arachidonic acid
Content in LDL, decrease after Cu^{2+}-catalyzed oxidation 1043
In molecular species of human umbilical artery and vein endothelial cell phospholipids 709
Inhibitory effects on metabolism of, in human platelets, by *trans* n-3 EPA and DHA 1241
Metabolism by Caco-2 cells 773
Metabolism, in smooth muscle cells, effects of oxidized LDL on 551
Metabolism, modulation by n-6 and n-6 polyunsaturated fatty acids 271
***Ath-1* gene**
In mice, control of HDL levels by 91
Phenotypic characterization of 91
Atherosclerosis: In mice, synthetic diets for study of 859
AY9944: Inhibition of conversion of 7-dehydrocholesterol to cholesterol by 2149

B

Baboon: Polymorphism of apoA-IV in 131
Beta-oxidation: Of straight and branched chain fatty acids, in skin fibroblasts in patients with peroxisomal disorders 217
Bile
Model, cholesterol crystal growth in 1903
Resolution of simple micelles, mixed micelles, and vesicles in, by high performance gel filtration 2103
Bile acid(s)
3α,7α,12α-Trihydroxycoprostanoyl-CoA oxidase in human liver peroxisomes 1853
C24-, lack of formation from sitosterol in humans 1083
Calcium binding by 781
Effect of 7β-alkyl chenodeoxycholic acid analogs on cholesterol metabolism in the hamster 1015
Hydroxylated, C-22 and C-23, synthetic 289
In amniotic fluid, changes during gestation 1089
Lipophilicity, determination by 1-octanol/water partition coefficient 1433
Lipophilicity, evaluation by reverse phase HPLC 1433
Metabolism in early life 1089
Metabolism in liver disease 249
Metabolism of lithocholic acid in the rat 615
Regulation of 7α-hydroxylase by, in rat liver 2159
Secretion, in hypercholesterolemia-resistant rabbits 2019
Serum, size exclusion chromatography for extraction of 1517

Short side chain, in urine of CTX patients 1895
Structure-activity relationship 1433
Synthesis in human liver, serum 7α-hydroxycholesterol as an indicator of 2209
Synthesis, interrelationship between cholesterol and bile acid synthesis pathways 79
Synthesis, regulation of 2149
Synthetic C-22 and C-23 hydroxylated, physicochemical and biological properties 289
Ursodeoxycholic, chenodeoxycholic, and 7-ketolithocholic acids, primary bile acids of the guinea pig 1301
Bile acid metabolites: C-1 and C-6 hydroxylated, excretion into urine 249
Bile fistula: Effect of on 7α-hydroxylase and HMG-CoA reductase in rat liver 2159
Bile formation: Physical-chemical basis for subselection of biliary lecithin species 55
Bile lipids: Self-association studied by infrared spectroscopy and viscometry 947
Bile salt(s)
Effect on interfacial inactivation of pancreatic carboxyester lipase 831
In submicellar concentration, effect on bidirectional cholesterol transfer from hepatocytes to HDL 1063
Interaction with lecithin-cholesterol vesicles 55
Synthesis of photolabile 7,7-azo analogues of natural precursors 315
Bile salt analogues: Synthesis of sodium 3α,7α- and 3α,7β-dihydroxy-5β-cholane-24-sulfonate 1323
Bile salt hydrophobicity: Relation to bidirectional cholesterol transfer 1063
Biliary lipids
Aggregation states of, during bile formation 55
Vesicular and micellar carriers of, isolation by ultracentrifugation 341
Binding
And internalization of HDL subclasses by mouse peritoneal macrophages 1947
And internalization of LDL by monocyte-macrophage fractions 1455
Blood lipids: Changes in, from overfeeding with medium and long chain triglycerides 407
Body fat: In women, relationship with apoE polymorphism 1023

C

Caco-2 cells
Binding of pancreas-derived cholesterol esterase to 2029
Cholesterol esterase-dependent uptake of neutral lipids by 2029
Differentiated, editing of apoB mRNA in 695
Increased production of apoB and triglycerides by oleic acid 113
Metabolism of 15-HETE by 773
Secretion of apoB-100 and apoB-48 695
Calcium binding: By bile acids 781
Calorimetry, high resolution: Of apoB in LDL and apoB solubilized in Na deoxycholate 1051
Carbohydrate: In LDL, associated with LDL subclass patterns 1577
Carboxylester lipase, pancreatic: Effect of bile salts on interfacial inactivation 831
Cardiolipins: Silicic acid HPLC of 1513
Cellular localization: Of apoD and LCAT mRNA, by in situ hybridization 995
Cellular membranes: Role of submicellar concentrations of bile salts in transfer of cholesterol between 1063
Cellular retinol-binding protein: mRNA, in normal and retinoid-deficient rats 821
Cerebrotendinous xanthomatosis: Identification of short chain bile acids in urine 1895
CETP: *see* **Cholesteryl ester transfer protein**
CHD: *see* **Coronary heart disease**
Chemical composition
Of LDL subfractions prepared by sequential precipitation with arterial CSPG 1387
Of lipoproteins in EFA deficiency 2009
Chenodeoxycholic acid
A primary bile acid of the guinea pig 1301
7β-Alkyl analogs, effect of on cholesterol metabolism in the hamster 1015
7β-Alkyl analogs, metabolism in the hamster 1015
Chinese hamster ovary cells: Glycosylation mutants, defective synthesis of dolichol in 523
CHL: *see* **Combined hyperlipidemia**
CHO: *see* **Chinese hamster ovary cells**
5β-Cholestane-3α,7α,12α,26-tetrol: Synthesis and applicability of 7,7-azo analogue of 315
5β-Cholestane-3α,7α,12α-triol: Synthesis and applicability of 7,7-azo analogue of 315
Cholesterol
^{14}C-labeled, synthesis of [^{14}C]epicholesterol from 150
Cell-derived, distribution among plasma lipoproteins 2195
Concentration in different apoE phenotypes 487
Effect on phospholipid biosynthesis in yeast strain GL7 653
In LDL and HDL, oxidation by cholesterol oxidase 2235
LDL-derived, intracellular transport in cultured fibroblasts 103
Metabolic variables during squalene feeding 1637
Newly synthesized, in regulation of cholesterol 7α-hydroxylase activity 79
Oxygenation of in cell cultures 2179
Plasma and lipoprotein, micro-assay for enzymatic determination of 738
Regulation by, of activity of squalene epoxidase in rat liver 2095
Cholesterol 26-hydroxylase: Activity, of hamster liver mitochondria 735
Cholesterol 7α-hydroxylase
Activity in human liver 2209
Activity, linkage with rate of cholesterol biosynthesis 79
Down-regulation of activity 2149
Cholesterol absorption: In hypercholesterolemia-resistant rabbits 2019
Cholesterol biosynthesis
Inhibitors of differential regulation of LDL suppression of HMG-CoA reductase 203
Interrelationship with bile acid synthesis 79
Cholesterol crystal growth: In model solutions of supersaturated bile 1903
Cholesterol efflux
From mouse peritoneal macrophages, HDL-mediated 1947
HDL-mediated, regulation of phospholipid biosynthesis during 1741
Cholesterol esterase: Pancreas-derived, interaction with Caco-2 cells 2029
Cholesterol esterification
In cultured macrophages, effects of oxidized LDL on 1361

Inhibition of, in regulating HDL interaction with isolated human intestine epithelial cells 1821
Measurement of in plasma 349
Cholesterol gallstones: Hepatic ACAT activity in patients with 1993
Cholesterol homeostasis: In the ethionine-induced premalignant rat liver 933
Cholesterol influx: In macrophages, regulation of phospholipid biosynthesis during 1741
Cholesterol-lecithin vesicles: Interaction with bile salts 55
Cholesterol metabolism
Hepatic, regulation of in humans 2219
In fibroblasts from rabbits resistant to diet-induced hypercholesterolemia 985
In hamsters, effect of 7β-alkyl chenodeoxycholic acid analogs 1015
Regulation in arterial cells by cytokines 299
Report of a Conference 1327
Cholesterol oxidase: Oxidation of cholesterol in LDL and HDL by 2235
Cholesterol synthesis
Diurnal periodicity in humans 667
Inhibition, in regulating HDL interaction with isolated human intestine epithelial cells 1821
Selective inhibition by HMG-CoA reductase inhibitors 1271
Cholesterol transfer: Bidirectional, effect of bile salts on 1063
Cholesterol transport, reverse: Report on a Meeting 2295
Cholesterol, free: Role of in regulation of the HDL receptor 1821
Cholesterol, plasma: Of African green monkeys, effect of dietary fatty acids on 1873
Cholesterol, radioactive: Use of, in rapid labeling of plasma lipoproteins 349
Cholesteryl ester(s)
Cell-derived, distribution among plasma lipoproteins 2195
Cellular uptake by Caco-2 cells 2029
Inhibition of hydrolysis by diethyl phosphate compounds and N-alkylcarbamates in hepatoma cells 2187
Molecular species formed in abetalipoproteinemia 927
Synthesis, in HepG2 cells, in response to a fatty acid challenge 2045
Synthesis, role of in apoB secretion from HepG2 cells 2045
Cholesteryl ester hydrolase, neutral: Inhibitors of 2187
Cholesteryl ester synthesis: Effect of PMA on, in cultured coronary smooth muscle cells and macrophages 329
Cholesteryl ester transfer
Abnormalities in, following lovastatin treatment in hypercholesterolemic patients 1263
Catalyzed by lipid transfer proteins 397
Determined by concentration in phospholipid surface of substrate particle 1559
Impaired, in families of baboons 965
Cholesteryl ester transfer protein
Effect of, on composition and distribution of human LDL subfractions 1199
Role of in HDL size conversion 1569
Cholesteryl oleate: Uptake by Caco-2 cells, cholesterol esterase-mediated 2029
Cholestyramine
Effect on HMG-CoA reductase in gallstone patients 2219
Effect on LDL receptor expression in gallstone patients 2219
Effect on metabolic variables of cholesterol 1637
Cholestyramine treatment
Effect on hepatic LDL receptors 279
Effect on HMG-CoA reductase 279
Effect on plasma lipids and apolipoproteins 279
Chondroitin sulfate-rich proteoglycan: Sequential complexing of LDL subfractions by 1387
Chromatography, gas
And mass spectrometry, analysis of PAF by 719
And mass spectrometry, quantification of mass of inositol phosphates by 1925
Chromatography, gas-liquid polar: Of molecular species of enantiomeric diacylglycerols 2119
Chromatography, high performance gel: Of simple micelles, mixed micelles, and vesicles in bile 2103
Chromatography, high performance liquid
Chiral phase, of diacylglycerol moieties of natural triacylglycerols 1711
Chiral phase, of molecular species of enantiomeric diacylglycerols 2119
Identification and quantitation of biological lipids by 2127
Normal phase, of retinoic acid 175
Of polyphosphoinositides on hydroxylapatite 157
Reverse phase, of retinoic acid 175
Silicic acid, of cardiolipin, and mono- and dilysocardiolipins 1513
Chromatography, size exclusion: Extraction of serum bile acids by 1517
Chylomicron(s)
Human, secretion of RRR- and SRR-α-tocopherols in 675
Size and shape determination by three-dimensional analysis of electron microscopy shadows 163
Chylomicron remnants: Processing by macrophages 1399
Circular dichroism: Of apoB, in LDL and solubilized in sodium deoxycholate 1051
Clofibrate: Induction of rat hepatic P450 by 1477
Colloidal gold-labeled HDL: In studies of metabolism of HDL in rat hepatoma cells 191
Combined hyperlipidemia: Reduction of LDL apoB by lovastatin 567
Compartmental model: Of retinol metabolism in rats with low vitamin A status 1535
Coronary heart disease: Hypervariability in a minisatellite 3' region of the apoB gene in patients with 659
Corpulent rat, JCR:LA: An obese, hyperlipidemic, hyperinsulinemic strain 1491
CRBP: *see* **Cellular retinol-binding protein**
CSPG: *see* **Chondroitin sulfate-rich proteoglycan**
CTX: *See* **Cerebrotendinous xanthomatosis**
Cultured fibroblasts: From patients with mevalonate kinase deficiency, HMG-CoA reductase activity in 515
Cytokines
Effects of, on production of LPL in cultured macrophages 1379
Regulation of cholesterol metabolism by, by the lipoxygenase pathway 299

D

***cis*-4-Decenedioic acid:** Urinary excretion of in MCAD deficiency 763
7-Dehydrocholesterol: Conversion to cholesterol, inhibition of 2149
Desmosterol: Oxygenation of in cell cultures 2179
Deuterated 26-hydroxycholesterol
Synthesis of 735
Use of in determining cholesterol 26-hydroxylase activity 735
Deuterated tocopherols: In studies of nascent VLDL from perfused liver of cynomolgus monkeys 687

Deuterated water: In studies of cholesterol synthesis in humans 667
Dextran sulfate adsorption LDL-apheresis: Biological activity of LDL derived from 2277
DHA: *see* **Docosapentaenoic acid**
Diabetes mellitus: In rats, effects of fish oil on glomerular function 1219
Diacylglycerols
Accumulation in human adipose tissue 1351
Enantiomeric, determination of molecular species of by chiral phase HPLC 2119
HPLC of, on a chiral phase of bonded (R)-(+)-1(1-naphthyl) ethylamine 1711
Molecular species of, from lipolysis of menhaden oil 137
Uptake by hemolymph lipophorin, effect of adipokinetic hormone 2039
Dicarboxylic acids: Unsaturated, urinary excretion of in MCAD deficiency 763
Diet: Influence on serum lipids and lipoproteins 1149
Dietary cholesterol: Effect of, on plasma cholesterol levels and hepatic lipoprotein metabolism 1413
Dietary fat
Effect of on accumulation of HDL_1, in some families of baboons 965
Effect of on lipogenic enzyme mRNA levels in rat hepatic and adipose tissue 623
Dietary fatty acids: Effect of, on plasma cholesterol levels and hepatic lipoprotein metabolism 1413
Dietary triglycerides: Saturated and polyunsaturated, interaction in regulating LDL in the rat 1809
Diethyl phosphate compounds: Inhibition of neutral cholesteryl ester hydrolase in hepatoma cells 2187
Diets, synthetic: With high and low fat, for study of atherosclerosis in mice 859
Differential scanning calorimetry
Of apoB, in LDL and solubilized in sodium deoxycholate 1051
Of phospholipid/cholesteryl ester/unesterified cholesterol emulsions 849
Of PP12 and PP14 1853
Dihydroxyacetone-phospahte acyltransferase: Activities in human hepatoma cell lines 1293
12S,20-Dihydroxyeicosapentaenoic acid: Neutrophil metabolites from platelet 12S-HEPE 801
5S,12S-Dihydroxyeicosapentaenoic acid: Neutrophil metabolites from platelet 12S-HEPE 801
3,5-Dinitrophenylurethane derivatives: Of diacylglycerols, analysis by chiral phase HPLC 2119
1,2-Dipalmitoyl-3-lauroyl-*sn*-glycerol: Polymorphic behavior of 1853
1,2-Dipalmitoyl-3-myristoyl-*sn*-glycerol: Polymorphic behavior of 1853
Diurnal periodicity: Of cholesterol synthesis in humans 667
Docosahexaenoic acid: Turnover in brain, erythrocytes, and plasma of rhesus monkeys 237
***trans*-Docosahexaenoic acid, n-3:** Inhibitory effect on arachidonic acid metabolism in human platelets compared to *cis*-DHA 1241
Docosapentaenoic acid: Effect of on VLDL assembly and secretion by cultured rat hepatocyte 2079
Dolichol: Synthesis in Lec9 CHO glycosylation mutants 523
Doxorubicin: P388 cells resistant to, synthesis and metabolism of myristic acid in 1973
Dysbetalipoproteinemia, familial: Genetic heterogeneity in 45
Dysbetalipoproteinemia, normolipemic: In subjects with a rare genetic apoE variant (apoE1) 1005

E

Eicosapentaenoic acid: Effect of on VLDL assembly and secretion by cultured rat hepatocytes 2079
***trans*-Eicosapentaenoic acid, n-3:** Inhibitory effect on arachidonic acid metabolism in human platelets compared to *cis*-EPA 1241
Electron microscopy
Immunocytochemical localization of RBP in rat liver 1669
Of enterocytes 1
Of extracellular liposomes from the hyperlipidemic rabbit aorta 1793
Of fixed chylomicrons and emulsions, size and shape determination 163
Of human fibroblasts after incubation with gold-labeled Lp[a] and LDL 429
Of human monocyte-macrophage fractions 1455
Of rat hepatocytes, localization of apoE 1589
Of the plasma lipid transfer particle from the tobacco hornworm 871
Electrophoresis, gradient gel
Identification of LDL- and HDL-peak diameters by 1131
Separation of human LDL subfractions by 1199
ELISA: *see* **Enzyme-linked immunosorbent assay**
EM: *see* **Electron microscopy**
Endothelial cells
Bovine aortic, localization of 12-HETE in 2265
Of human umbilical artery and vein, phospholipids in 709
Enzymatic micro-assay: Of plasma and lipoprotein cholesterol 738
Enzyme-linked immunosorbent assay
For lipoprotein lipase 17
Measurement of LDL receptors by 1683
EPA: *see* **Eicosapentaenoic acid**
Epicholesterol: ^{14}C-labeled, synthesis of from [^{14}C]cholesterol 160
Epidermis, porcine
Lipid composition of 1839
Metabolism of linoleic acid in 1839
Epitope mapping: Of six monoclonal antibodies to human apoA-I 375
Ergosterol: Effect on phospholipid biosynthesis in yeast strain GL7 653
Essential fatty acid deficiency: Combined (n-3 and n-6), lipoprotein abnormalities in 2009
Estrogen: RBP mRNA induced by, in the kidney 1483
Ethinylestradiol: Effect of on levels of HTGL mRNA and LDL receptor mRNA in the rat 1211
Ethionine
Effect on HMG-CoA reductase, ACAT, cholesterol 7α-hydroxylase, and cholesteryl ester hydrolases 933
Induction of premalignant rat liver by 933
Extrahepatic tissues: Versus liver, cholesterol synthesis in, selective inhibition by HMG-CoA reductase inhibitors 1271

F

FABP: *see* **Fast acid-binding protein**
Fabry's disease: Glycolipids in 335
Familial combined hyperlipidemia: LDL subpopulations in 975
Familial dysbetalipoproteinemia: Genetic heterogeneity in 45
Familial hypercholesterolemia: Rhesus monkey model of 633

Familial hypolipoproteinemia: ApoA-I metabolism in 1753
Fasting
Decrease in apoB mRNA editing 1663
Decrease in secretion of small molecular weight apoB by rat hepatocytes 1663
Fatty acid(s)
Anthroyloxy, in study of fluidity gradient in plasma membranes 261
Monounsaturated, dietary, effect of on plasma lipids in humans 2141
Monounsaturated, dietary, effect of on plasma lipoproteins of African green monkeys 1873
n-3, Dietary, and brain fatty acid composition 237
n-3, Dietary, reduction of arachidonic acid levels by 271
n-3, Effect on VLDL triglyceride metabolism 1549
n-3/n-6 Ratio, effect of on α-tocopherol content in heart and liver 2201
Polyunsaturated, dietary, effect of on plasma lipoproteins of African green monkeys 1873
Saturated, dietary, effect of on plasma lipoproteins of African green monkeys 1873
Straight chain and branched, oxidation in skin fibroblasts from patients with peroxisomal disorders 217
ω- and (ω-1)-hydroxylation of 1477
Fatty acid analogues
Of myristic acid, covalent attachment to synthetic peptide, catalyzed by NMT 1121
Sulfur-substituted, hypolipidemic action 1627
Fatty acid composition
In brain, effect of dietary fat on 237
Of bovine brain phosphatidylserine 2285
Of hepatic lipids, effect of dietary fish oil 455
Of P388 cells and P388 doxorubicin-resistant cells 1972
Of plasma lipids after overfeeding medium and long chain triglycerides 407
Of rat liver microsomal phospholipids, effect of dietary n-3 fatty acids 271
Of rat serum lipids, effect of dietary n-3 fatty acids 271
Total plasma, in EFA deficiency 2009
Fatty acid deficiency (n-3): In rhesus monkeys 237
Fatty acid metabolism: Control of by acyl-CoA ligases 583
Fatty acid oxidation
Of very long chain fatty acids 583
Regulation by hypolipidemic sulfur-substituted fatty acid analogues 1627
Fatty acid synthesis: By drug-resistant and drug-sensitive cells 1973
Fatty acyl-CoA: Peroxisomal oxidase for, in human liver 1865
Fatty alcohols: Inhibition of lipolysis by 889
FCH: *see* **Familial combined hyperlipidemia**
FFA: *see* **Free fatty acids**
FH: *see* **Familial hypercholesterolemia**
Fibroblasts
EM of, after incubation with gold-labeled LDL and Lp[a] 429
From rabbits resistant to diet-induced hypercholesterolemia, cholesterol metabolism in 985
Fibroblasts, cultured
From patients with mevalonate kinase deficiency, HMG-CoA reductase activity in 515
Transport of LDL-derived cholesterol to plasma membranes 103
Fibroblasts, skin: Peroxisomal disorders, oxidation of straight chain and branched fatty acids 217
Fish oil
Dietary, effect of on fatty acid composition of brain fatty acids 237
Dietary, effect of on rat plasma and liver triglyceride and cholesterol concentrations 1809
Dietary, effect on hepatic lipid metabolism 455
Effect on glomerular function in diabetic rats 1219
Effect on VLDL triglyceride kinetics in humans 1549
Fatty acids (EPA and DHA), effect of on VLDL assembly and secretion by cultured rat hepatocytes 2079
Influence on plasma lipids and lipoproteins 1549
Fractional catabolic rate
Of apoB-100 in lipoproteins of normal and WHHL rabbits 753
Of free and esterified cholesterol in humans 667
Of native and reductively methylated apoB-89 in normal and WHHL rabbits 2001
Of VLDL apoB 1031
Free cholesterol: Role of in regulation of the HDL receptor 1821
Free fatty acids
Mechanism of re-esterification in human adipocytes in vitro 1423
Re-esterification in adipose tissue, model for control of by blood flow 1423
Release from adipose tissue 1423
FU5AH cells: Metabolism of apoE-free HDL in 191

G

Galactosylceramide: Preparation of sphingenine from 2291
Gallstone formation: In mice fed synthetic high- and low-fat diets 859
Gallstone patients: Effect of cholestyramine on HMG-CoA reductase and LDL receptor expression 2219
Gallstones, calcium: Pathogenesis of 781
Gallstones, cholesterol: Hepatic ACAT activity in patients with 1993
Gb4Gal-TR: *see* **UDP-galactose:globoside galactosyltransferase**
Gene expression
LPL, transcriptional control of, in preadipocyte cells, by growth hormone 1283
Of intestinal apoA-IV in the piglet 497
Gene polymorphism: ApoB, in noncoding regions, molecular basis of 71
Gene, apolipoprotein A-I promoter polymorphism: Association with hyperalphalipoproteinemia 1371
Gene, apolipoprotein B: Hypervariability in a minisatellite region in patients with CHD 659
Genetically obese rats: Increased α_2-adrenergic binding sites and antilipolytic effect in adipocytes of 811
Glomerular function: In diabetic rats, effects of fish oil on 1219
Glucose ingestion: Effects of on postprandial lipemia and triglyceride clearance in humans 597
Glucosidase I: Inhibition of, effect on secretion of rat hepatic lipase 1883
Glycerol phosphodiesters: Of phospholipids, ^{31}P NMR of 479
***sn*-Glycero-3-phosphocholine:** Acylation of to form phosphatidylcholines 1522
Glycoglycerolipid, sulfate: In spermatozoa 1073
Glycolipids
In angiokeratoma corporis diffusum (Fabry's disease) 335
In liver and spleen of rats with lysosomal acid lipase deficiency 1605
In megakaryocytes and platelets, composition and synthesis 1645
Glycosylation
Of apoB 1577
Role of in secretion of hepatic lipase in the rat 1883

Glycosylation mutants: Of Lec9 CHO cells, defective synthesis of dolichol 523
Growth hormone: Transcriptional control of LPL gene expression by, in preadipocyte cells 1283
Guinea pig: Primary bile acids of 1301

H

Hamsters: Hypertriglyceridmia in 1983
HDL: *see* **High density lipoprotein**
Hemolymph: Locust, lipid transfer particle in 793
Heparin: Effect of on apparent activity of cell LPL 1467
Heparin extracorporeal lipoprotein LDL-apheresis: Biological activity of LDL derived from 2277
Hepatic lipase: Rat, secretion of 1883
Hepatic triglyceride lipase
Activity in EFA deficiency 2009
mRNA, levels of, effect of food intake, ethinylestradiol, and development 1211
Sandwich-enzyme immunoassay using monoclonal antibodies 1911
Hepatitis B virus: Surface antigen particles, lipid composition of 1293
Hepatocytes
ApoE localization of, by immunogold labeling 1589
Effect of EPA and DHA on VLDL assembly and secretion 2079
From the corpulent rat, hypersecretion of VLDL by 1491
Movement of cholesterol from, to HDL 1063
Secretion of apoB, regulation of 1663
Hepatoma cells
Inhibition of neutral cholesteryl ester hydrolase by diethyl phosphates and N-alkylcarbamates 2187
Metabolism of apo-free HDL in 191
12S-HEPE: *see* **12S-Hydroxyeicosapentaenoic acid**
HepG2 cells
Regulation of apoB secretion from 2045
Regulation of squalene epoxidase in 2087
12-HETE: *see* **12-Hydroxyeicosatetraenoic acid**
1-O-Hexadecyl-2-O-hexadecanoyl-3-O-β-D-(3'-sulfo)-galactopyranosyl-*sn*-glycerol: Seminolipid from bovine spermatozoa 1073
15-HETE: *see* **15-Hydroxyeicosatetraenoic acid**
High density lipoprotein
Accumulation of HDL_1, in baboons with impaired cholesteryl ester transfer 965
And pre-beta migrating lipoproteins with apoA-I, interconversion of 227
ApoE-free, metabolism in rat hepatoma cells 191
Cholesterol, relationship to genotype and allelic distribution for A to G transition in apoA-I promoter gene 1371
Deficiency syndrome in chickens 955
Identification of predominant peak diameter by electrophoresis 1131
Interaction with isolated human intestine epithelial cells 1821
Levels in mice, control of by the *ath-1* gene 91
Levels, and phenotypic characterization of the *ath-1* gene 91
Movement of cholesterol to, from primary hepatocytes 1063
Oxidation of cholesterol in, by cholesterol oxidase 2235
Particle size distribution according to particle size versus migration distance 1131
Particles of low molecular weight, isolation and identification 1771
Prevention of aggregation of LDL by 645
Recognition of apoA-I, by monoclonal antibodies 375
Size conversion, role of CETP in 1569
Subclasses, interaction with mouse peritoneal macrophages 1947
Subclasses, separated by free flow isotachophoresis 1947
High-fat diet: Effect of on interconversion of prebeta-migrating lipoproteins with apoA-I and HDL 227
Hippocampus: Synthesis and regulation of LPL in 1307
HL: *see* **Hepatic lipase**
HMG-CoA: *see* **3-Hydroxy-3-methylglutaryl-CoA**
Homeostasis, α-tocopherol: Effect of dietary n-6/n-3 polyunsaturated fatty acid ratio 2201
HPLC: *see* **Chromatography, high performance liquid**
HTGL: *see* **Hepatic triglyceride lipase**
Hydrocarbons: Inhibition of lipolysis by 889
Hydroperoxides: Linoleate-derived, in Cu^{2+}-catalyzed oxidized LDL 1043
Hydrophobicity plots: Of LDL receptor-binding domains of apoB, from seven species 1109
26-Hydroxycholesterol: Synthesis, metabolism, and biologic activities, a review 1527
7α-Hydroxycholesterol
Esterified and total, in human serum 2209
In human serum, as indicator for hepatic bile acid synthesis 2209
12-Hydroxyeicosatetraenoic acid: Localization in bovine aortic endothelial cells 2265
12S-Hydroxyeicosapentaenoic acid: Platelet-derived, metabolism of by neutrophils 801
13(R,S)-Hydroxyoctadecadienoic acids: Produced by psoriatic skin scales 125
15-Hydroxyeicosatetraenoic acid: Metabolism by Caco-2 cells 773
7α-Hydroxylase: Regulation in rat liver 2159
7α-Hydroxylation: Of cholesterol, down-regulation of activity 2149
3-Hydroxy-3-methylglutaryl coenzyme A reductase
Activity in cultured fibroblasts from patients with mevalonate kinase deficiency 515
Activity in fibroblasts from rabbits resistant to diet-induced hypercholesterolemia 985
Activity in gallstone patients, effect of cholestyramine 2219
Effect of dietary cholesterol and fatty acids on 1413
In cultured cells, differential regulation of 203
In rhesus monkeys, effect of cholestyramine 279
Inhibition of, effect of on interaction of HDL with isolated human intestine epithelial cells 1821
LDL suppression of 203
Regulation in rat liver 2159
Selective inhibition of cholesterol synthesis, by inhibitors of 1271
3-Hydroxy-3-methylglutaryl coenzyme A reductase phosphatase: Inhibition by a protein from rat liver 919
Hydroxylapatite: HPLC of polyphosphoinositides on 157
Hydroxylation
1β or 6α, of bile acids in patients with liver disease 249
Of fatty acids and prostaglandins by rat hepatic P450 1477
Hyperalphalipoproteinemia
Associated with human apoA-I gene promoter polymorphism 1371
In baboons 965
Hypercholesterolemia
Abnormalities in lipoprotein composition and cholesteryl ester transfer after lovastatin treatment 1263
Diet-induced, cholesterol metabolism in fibroblasts from rabbits resistant to 985
Familial defective apoB-100, a review 1337
In swine, plasma lipoprotein subfractions 839

Hyperlipidemia
Extracellular liposomes from the hyperlipidemic rabbit aorta 1793
In isotretinoin-treated rats 183
Metabolism of apoB-100 in lipoproteins of the WHHL rabbit 753
Hyperlipidemia, combined: Reduction of apoB by lovastatin 567
Hyperlipoproteinemia
Type I, identification of LPL immunoreactive protein 17
Type I, in a patient with active LPL in adipose tissue and indication of its defective transport 1187
Type III, in subjects with a rare genetic apoE variant (apoE1) 1005
Hypertriglyceridemia
In the hamster, genesis of 1983
Isolation of an apoC-II variant 385
Metabolism of apoB in 361
Hypervariable region: Of the apoB gene 659
Hypoalphalipoproteinemia, familial: ApoA-I metabolism in 1753
Hypolipidemic compounds: Sulfur-substituted fatty acid analogues 1627
Hypotriglyceridemic effect: Of dietary fish oil 1549

I

IEF: *see* **Isoelectric focusing**
Immobilized pH gradients: Analytical IEF of plasma and VLDL apoE 149
Immunoassay: Sandwich-enzyme, of LPL and HTGL in post-heparin plasma 1911
Immunocytochemical localization
Of apoB-100 in human intestinal mucosa 1937
Of apoD in rat tissues 2243
Of LDL and Lp[a] on surface of human fibroblasts 429
Of RBP in rat liver 1669
Immunoenzymatic localization: Of apolipoproteins in enterocytes and hepatic tissue 1
Immunofluorescence: Of LPL in adipose tissue 1187
Immunogold labeling
Detection of apoB-100 in human intestinal mucosa 1937
Of apoE in rat hepatocytes 1589
Immunohistochemical analysis: Of apoB-48 in human liver and intestine 1761
Inositol phosphates: Quantification using gas chromatography-mass spectrometry 1925
Insects: Dynamics of lipophorin metabolism, a review 1725
In situ hybridization
Cellular localization of apoD and LCAT mRNA in rhesus monkey tissues 995
For LPL in mouse tissues 1845
Intermediate density lipoprotein: And VLDL, conversion to LDL subpopulations in FCHL 975
Intestinal lymph
Preruminant calf, lipoproteins and apolipoproteins in, at peak lipid absorption 1781
Transport of lipid, apoA-I, and apoA-IV 1613
Intestinal mucosa: Human, immunolocalization and synthesis of apoB-100 in 1937
Intestinal organ culture: Synthesis of apoB-48 in 1
Intestine, human: Synthesis and secretion of apoB-48 and apoB-100 by 1761
Intracellular transport: Of LDL-derived cholesterol to plasma membrane in cultured fibroblasts 103
Isoelectric focusing
Of apoE 487
Of apoE2 isoforms 535
Of apolipoproteins, in abetalipoproteinemia 1
Of C apolipoproteins from VLDL 385
Of human VLDL apoE using immobilized pH gradients 149
Isotachophoresis: Separation of HDL subclasses by 1947
Isotachophoresis, preparative free flow: Of apoB-containing lipoproteins, characterization of 1173
Isotretinoin: Treatment in rats, induction of hyperlipidemia 183

J

Juvenile hormone: Synthesis of protein conjugates of 354

K

Keratinocytes: Cultured human, serine-palmitoyl transferase activity in 1655
Ketoconazole: Effect of on HMG-CoA reductase activity and sterol synthesis in cultured cells 203
7-Ketolithocholic acid: A primary bile acid of the guinea pig 1301
Kinetic parameters
Of apoB in hypertriglyceridemia 361
Of apoB-100 and apoA-I, comparison of deuterated amino acids for measurement of 1693
Of VLDL in hypertriglyceridemia 385
Kinetics
Of Cu^{2+}-stimulated oxidation of porcine LDL subfractions 1965
Of LDL metabolism in the fetal rat 747
Of LDL subpopulations derived from VLDL and IDL 975
Of metabolism of apoB-containing lipoproteins 1031
Of vitamin A turnover 1535

L

Laser light-scattering detection: Of biological lipids separated by HPLC 2127
LCAT: *see* **Lecithin:cholesterol acyltransferase**
LDL: *see* **Low density lipoprotein**
Lecithin: Distribution between micellar and vesicular phases in model bile 1315
Lecithin-cholesterol vesicles: Interaction with bile salts 55
Lecithin:cholesterol acyltransferase
Change in plasma concentration in cynomolgus monkeys, by intravenous LPS and TNF 1099
Formation of cholesteryl esters in ABL patients 927
mRNA, cellular localization of, in rhesus monkey tissues 995
Leukotriene B5: Catabolism of in human polymorphonuclear neutrophils 1831
Lignoceric acid: Regulation of oxidation by lignoceroyl-CoA ligase 583
Lignoceroyl-CoA ligase: Subcellular localization 583
Linoleic acid
Content in LDL, decrease after Cu^{2+}-catalyzed oxidation 1043
Metabolism in porcine epidermis 1839
Lipase deficiency, combined: In mice, LPL mRNA in tissues 1845
Lipase, pancreatic carboxylester: Effect of bile salts on interfacial inactivation 831

Lipid(s)
Biliary, vesicular and micellar carriers of, isolation by ultracentrifugation 341
Biological, identification and quantitation of, by HPLC 2137
Blood, changes in, from overfeeding with medium and long chain triglycerides 407
Core, of LDL, effect of modification of on expression of apoB-100 epitopes 701
In liver fractions from gallstone patients 1993
Plasma, effects of dietary monounsaturated fatty acids on, in humans 2141
Serum and liver, in the hamster 1983
Serum, dietary influences on, a review 1149
Transport in intestinal lymph of the rat 1613
Lipid absorption: In the preruminant calf 1781
Lipid classes: Separation by solid phase extraction 2285
Lipid composition
In megakaryocytes 27
Of hepatitis B virus surface antigen particles 1293
Of human hepatoma cell lines 1293
Of pig epidermis 1839
Lipid metabolism: In fetal hepatocytes 2257
Lipid peroxidation: In Cu^{2+}-catalyzed oxidation of LDL 1043
Lipid peroxides: In native porcine LDL subfractions 1965
Lipid secretion: By hepatocytes from the JCR:LA-corpulent rat 1491
Lipid transfer
Between HDL and other lipoproteins 1569
From HDL to LDL 1199
Lipid transfer activity: Determined by neutral lipid in the phospholipid surface of substrate particles 1559
Lipid transfer particle
In locust hemolymph 793
Of tobacco hornworm, morphology and structure 871
Lipid transfer protein(s)
Assay of activity 1559
Human plasma, purification of 397
Lipid transport: In insects 1725
Lipogenesis: In the rat, effect of dietary fat 623
Lipogenic enzymes: mRNAs, hepatic and adipose tissue, levels in the rat, effect of dietary fat 623
Lipolysis
Inhibition by hydrocarbons and fatty alcohols 889
Of newly synthesized diacylglycerol in adipose tissue 1351
Lipophorin
Insect, dynamics of metabolism, a review 1725
Low density, formation in locusts, role of adipokinetic hormone 2039
Lipopolysaccharide: Injection of, effect on plasma LCAT in cynomolgus monkeys 1099
Lipoprotein binding: Of the apoB-100-apo[a] complex 909
Lipoprotein composition
Abnormalities in, following lovastatin treatment in hypercholesterolemic patients 1263
In cynomolgus monkeys injected with TNF and LPS 1099
Lipoprotein lipase
A cryptic enzyme stored in adipocytes and muscle cells 1467
Activity, in EFA deficiency 2009
Distribution in adipose tissue 1187
Immunoreactive protein, identification in plasma from type I hyperlipoproteinemia subjects 17
In adipose tissue, in a patient with hyperlipoproteinemia type I 1187
Inadequate intracellular transport and secretion, in a patient with type I hyperlipoproteinemia 1187
Inhibition of, by apoVLDL-II in the laying hen 507
mRNA, in neonatal and adult mouse tissues 1845
Production in cultured macrophages, effects of cytokines 1379
Sandwich-enzyme immunoassay using monoclonal antibodies 1911
Synthesis and regulation in the hippocampus 1307
Lipoprotein lipase gene
Expression in mice with and without LPL activity 1845
Transcriptional control of expression in preadipocyte cells, by growth hormone 1283
Lipoprotein metabolism, hepatic: Effects of dietary cholesterol and fatty acids on 1413
Lipoprotein secretion: By hepatocytes from the JCR:LA-corpulent rat 1491
Lipoprotein [a]
Apo[a] isoforms, and LDL receptor function, relationship between 633
Gold-labeled, EM of human fibroblasts after incubation with 429
In plasma lipids, relationship to molecular weights of apo[a] 603
Interaction with LDL receptor 429, 1247
Properties of the apoB-100-apo[a] complex 909
Lipoproteins
ApoB-containing, increased production by oleic acid in Caco-2 cells 113
Containing apoB, characterization by preparative free flow isotachophoresis 1173
Containing apoB-100, metabolism in normal and WHHL rabbits 753
Human plasma, effect of monounsaturated fatty acids on 2141
In intestinal lymph of the preruminant calf 1781
In mice fed synthetic high- and low-fat diets 859
Processing of, in human monocyte-macrophages 1455
Lipoproteins, plasma
In the developing chick 9
In the mouse, genetic heterogeneity of 467
In women, relationship with apoE polymorphism 1023
Of African green monkeys, effect of dietary fatty acids on 1873
Rapid labeling with radioactive cholesterol 349
Subfractions in swine with hypercholesterolemia 839
Lipoproteins, serum: Dietary influences on, a review 1149
Liposomes, extracellular: From the hyperlipidemic rabbit aorta 1793
5-Lipoxygenase: Neutrophil 801
Lipoxygenase pathway: Cytokine regulation of cholesterol metabolism in arterial cells by 299
Lithocholic acid: Metabolism in the rat 615
Lithocholic acid 3-O-glucuronide: Formation in the rat in vivo 615
Liver disease: Altered bile acid metabolism in 249
Liver lipids
Correlation with hepatic ACAT activity 1993
In patients with cholesterol gallstones 1993
Liver perfusion: Of cynomolgus monkeys, preferential enrichment of RRR-α-tocopherol in nascent VLDL 687
Locust
Purification and characterization of lipid transfer particle in hemolymph 793
Role of adipokinetic hormone on formation of low density lipophorin 2039
Long chain triglycerides: Changes in blood lipids during overfeeding of 407
Lovastatin
Effect on lipoprotein lipids 567
Reduction of apoB levels by, in combined hyperlipidemia 567

Treatment, abnormalities in lipoprotein composition and cholesteryl ester transfer in hypercholesterolemia 1263
Low density lipoprotein
Aggregation, prevention by HDL or apoA-I 645
Alteration in expression of apoB-100 epitopes 701
Cholesterol, intracellular transport in cultured fibroblasts 103
Concentration, in different apoE phenotypes 487
Containing apoB-89, enhanced clearance from plasma 2001
Control of particle size by genetic factors 467
Cu^{2+}-catalyzed oxidation of, formation of lipid hydroperoxy and hydroxy derivatives 1043
Derived from LDL-apheresis techniques, functional characteristics of 2277
Determination of receptor binding of 37
Effect of on regulation of LDL receptor mRNA expression in human lymphocytes 2067
Effect on activity and specificity of LCAT in ABL patients 927
Gold-labeled, EM after incubation of human fibroblasts with 429
Identification of predominant peak diameter by electrophoresis 1131
Interaction with human arterial proteoglycans 443
Kinetics of metabolism in the fetal rat 747
Model systems for 849
Oxidation of cholesterol in, by cholesterol oxidase 2235
Oxidized, effect of on cholesterol esterification in cultured macrophages 1361
Oxidized, effects on arachidonic metabolism in smooth muscle cells 551
Particle size distribution according to particle size versus migration distance 1131
Proteoglycan-selected subfractions, differential uptake by human macrophages 1387
Regulation of plasma concentration in the rat, effect of polyunsaturated fat 1809
Saturation kinetics of binding by fibroblasts from rabbits resistant to dietary hypercholesterolemia 985
Size, changes due to modification of core lipids 701
Slow transfer of cholesteryl esters from HDL to, in some families of baboons 965
Subclasses, carbohydrate content of 1577
Subfractions, human, separated by gradient gel electrophoresis 1199
Subfractions in hypercholesterolemic swine 839
Subfractions, porcine, oxidation of 1965
Subpopulations, formation from VLDL and IDL precursors, in FCHL 975
Suppression of HMG-CoA reductase in cultured cells, differential regulation of 203
Low density lipoprotein receptor
Cross-species comparison of apoB domain that binds to 1109
ELISA measurement of 1683
Expression in gallstone patients, effect of cholestyramine 2219
In rhesus monkeys, effect of cholestyramine 279
Interaction of Lp[a] species with 429
Interaction with Lp[a] 1247
Lp[a] levels, and apo[a], relationship between 633
mRNA, levels of in liver and intestine, effect of food intake, ethinylestradiol, and development 1211
Retroviral vector-transduced regulation of 2167
Low density lipoprotein receptor deficiency
Phenotype, correlation with LDL levels 633
Phenotype, lack of correlation with Lp[a] levels 633
Low density lipoprotein receptor gene: Expression in human lymphocytes, regulation by mitogenic stimulation 2067
Low density lipoprotein-apheresis techniques: Functional characteristics of LDL particles derived from 2277
LPL: *see* **Lipoprotein lipase**
LPS: *see* **Lipopolysaccharide**
Lp[a]: *see* **Lipoprotein[a]**
Lymph fistula rats: In studies of intestinal lymph transport of lipid, apoA-I, and apoA-IV 1613
Lymph, intestinal
Preruminant calf, lipoproteins and apolipoproteins in, at peak lipid absorption 1781
Transport of lipid, apoA-I, and apoA-IV 1613
Lymphatic drainage: Effect of on 7α-hydroxylase and HMG-CoA reductase in rat liver 2159
Lymphocytes, human: Regulation of LDL receptor gene expression in 2067
Lysoplasmenylethanolamine: High purity, preparation of 2113
Lysosomal acid lipase: Deficiency in rats 1605

M

Mab: *see* **Monoclonal antibody**
Macrophages
Cultured, effect of oxidized LDL on cholesterol esterification in 1361
Cultured, effects of cytokines on production of LPL in 1379
Effect of PMA on triglyceride and cholesteryl ester synthesis 329
Human, differential uptake of proteoglycan-selected LDL subfractions 1387
J-774, cultured, metabolism of VLDL in, effect of apoE3 2133
Monocyte-derived, uptake of LDL by 443
Mouse peritoneal, interaction with HDL subclasses 1947
Processing of chylomicron remnants and β-VLDL by 1399
Regulation of phospholipid biosynthesis in 1741
***Manduca sexta*:** Lipid transfer particle from 871
Mass spectra, thermospray: Of plant phosphatidylinositol 2285
MCAD: *see* **Medium chain acyl-CoA dehydrogenase**
Medium chain acyl-CoA dehydrogenase: Deficiency of 763
Medium chain triglycerides: Changes in blood lipids during overfeeding of 407
Megakaryocytes
At different stages of maturation, synthesis of glycolipids 1645
Composition and synthesis of glycolipids in 1645
Lipid composition and metabolism of 27
Membrane(s)
Endothelial, distribution of 12-HETE in 2265
Plasma, of living Hela cells, shape of the fluidity gradient in 261
Membrane-differential-filtration LDL-apheresis: Biological activity of LDL derived from 2277
Membrane fluidity: Of living Hela cells 261
Membrane phospholipids: Metabolism, relationship with hepatocellular carcinogenesis 1293
Menhaden oil triacylglycerols: Lipolysis by pancreatic lipase 137
Metabolism: In megakaryocytes at different stages of maturation 27
Metrizamide gradient: Fractionation of human monocyte-macrophages on 1455
Mevalonate kinase deficiency: HMG-CoA reductase activity in cultured fibroblasts 515

Micelle(s): Simple and mixed, in bile, resolution by high performance gel filtration chromatography 2103
Micelle formation: By taurocholate and glycocholate 947
Miconazole: Effect of on HMG-CoA reductase activity and sterol synthesis in cultured cells 203
Microemulsions: Containing phospholipid, cholesteryl ester, and unesterified cholesterol 849
Microsomal membranes: Accumulation of 12-HETE in 2265
Model bile: Distribution of lecithin between micellar and vesicular phases of 1315
Model systems: For LDL 849
Molecular species
Of diacylglycerols from lipolysis of menhaden oil 137
Of enantiomeric diacylglycerols, separation by chiral phase HPLC 2119
Of phospholipids, in human umbilical artery and vein endothelial cells 709
Monoacylglycerol acyltransferase activity: In perinatal hepatocyte/hepatoma hybrids 2257
Monoclonal antibodies
To human apoA-I, epitope mapping and expression 375
To LPL and HTGL, in sandwich-enzyme immunoassays 1911
Monocyte-macrophages: Processing of lipoproteins in 1455
Monounsaturated fatty acids: Dietary, effect of on plasma lipids in humans 2141
mRNA
ApoA-I, cellular and tissue, precise quantitation of 727
ApoB, apoA-I, and apoE, determination of absolute level in human hepatoma cell lines 1141
ApoB, decrease in editing by fasting 1663
ApoB, editing of in differentiated Caco-2 cells 695
ApoB-100, modulation of editing, effect on hepatic VLDL assembly 899
ApoB-48 and apoB-100, synthesis by the human intestine 1761
ApoD and LCAT, subcellular localization in rhesus monkey tissues 995
ApoD, molecular characterization and tissue distribution in the rabbit 2057
CRBP, in normal and retinoid-deficient rats 821
Hepatic and adipose tissue lipogenic enzymes, suppression by high-fat diets in the rat 623
HTGL and LDL receptor, effect on food intake, ethinylestradiol, and development on levels of 1211
LPL, in neonatal and adult mouse tissues 1845
Of intestinal apoA-IV, in the piglet 497
RBP, induced by estrogen in the kidney but not in the liver 1483
Muscle cells: LPL storage in 1467
Myristic acid
Covalent attachment to peptides 1121
Synthesis, in P388 cells resistant to doxorubicin 1973
Myristoyl-coenzyme A:protein N-myristoyltransferase: Novel fatty acyl substrates for 1121

N

(R)-(+-1-(1-Naphthyl)ethylamine: Chiral phase HPLC of diacylglycerols on 1711
Neutral lipids: In liver and spleen of rats with lysosomal acid lipase deficiency 1605
Neutrophils
Formation of leukotrienes B from eicosapentaenoic acid 1831
Interaction with platelets 801
NMT: *see* **Myristoyl-CoA:protein N-myristoyltransferase**
Nuclear magnetic resonance
^{31}P, of phospholipid glycerol phosphodiester residues 479
Proton, characterization of seminolipid from bovine spermatozoa 1073
Use of to determine distribution of lecithin between phases of model bile 1315
Nucleotide sequence
Of cDNA and genomic DNA clones, apoB domains that bind to the LDL receptor 1109
Of rabbit apoD cDNA 2057

O

***cis*-4-Octenedioic acid:** Urinary excretion of in MCAD deficiency 763
Oleic acid: Induction of production of apoB and triglycerides by, in Caco-2 cells 113
Oligosaccharide: Processing, role of in secretion of rat hepatic lipase 1883
β-Oxidation, peroxisomal: Of prostaglandins, metabolites of 307
Oxidation
Cu^{2+}-catalyzed of LDL, formation of lipid hydroperoxy and hydroxy derivatives 1043
Of porcine LDL subfractions 1965
4-Oxoretinoic acid, 13-*cis*: Identification and quantitation in human plasma 1445
Oxygenase products: In psoriatic skin scales 125
Oxygenation: Of desmosterol and cholesterol in cell cultures 2179
Oxysterols: In oxidized LDL, analysis of 1361

P

P450: Rat hepatic, induced by clofibrate 1477
PAF: *see* **Platelet activating factor**
Pancreatic lipase
Inhibition by hydrocarbons and fatty alcohols 889
Lipolysis of menhaden oil triacylglycerols and fatty acid alkyl esters by 137
Parenchymal cells: Internalization of RBP by receptor-mediated endocytosis 1229
PC: *see* **Phosphatidylcholine**
Peroxidation, lipid: In Cu^{2+}-catalyzed oxidation of LDL 1043
Peroxisomal β-oxidation: Of prostaglandins, metabolites of 307
Peroxisomal disorders
Of fatty acid metabolism 583
Oxidation of straight chain and branched chain fatty acids in skin fibroblasts 217
Peroxisomal oxidases: For fatty acid-CoAs and trihydroxycoprostanoyl-CoA in human liver 1865
Peroxisomes
Hepatic, localization of apoE in matrix and limiting membrane 1589
Human liver, fatty acyl-CoA oxidase and THC-CoA oxidase in 1865
Rat liver, β-oxidation of prostaglandins of 307
Phase behavior: Of PP12 and PP14 1853
Phenotypes, apoE: Concentrations of serum lipids, apoA-I, and apoB 487

Phorbol 12-myristate 13-acetate: Effect of on triglyceride and cholesteryl ester synthesis in cultured cells and macrophages 329
Phosphatidate phosphohydrolase: Role in triglyceride synthesis 1627
Phosphatidylcholine emulsions: Size and shape determination by three-dimensional analysis of electron microscopy shadows 163
Phosphatidylcholine: Efficient synthesis of 1522
Phosphatidylserine: Enzymatic synthesis of 1719
Phospholipid(s)
^{31}P NMR of glycerol phosphodiester residues of 479
Molecular species of, in human umbilical artery and vein endothelial cells 709
Role of in determining immunochemical structure of apoA-I 375
Phospholipid biosynthesis
In yeast, effect of sterols on 653
Regulation in macrophages 1741
Phospholipid metabolism: Regulation by hypolipidemic sulfur-substituted fatty acid analogues 1627
Photolabile 7,7-azo analogues: Of natural bile salt precursors, synthesis of 315
Physicochemical properties: Of bile acids 1433
Plant sterols: Levels in heterozygotes with sitosterolemia and xanthomatosis 881
Plasma apolipoproteins: In rhesus monkeys, effect of cholestyramine 279
Plasma cholesterol
In normal and hypercholesterolemia-resistant rabbits 2019
Levels, effects of dietary cholesterol and fatty acids on 1413
Plasma lipids
Effects of dietary monounsaturated fatty acids on, in humans 2141
In rhesus monkeys, effect of cholestyramine 279
Of African green monkeys, effect of dietary fatty acids on 1873
Plasma lipoproteins
Distribution of apoE in, role of cysteine-arginine interchange at residue 112 1503
Distribution of cell-derived cholesterol in 2195
In the mouse, heterogeneity of 467
In women, relationship with apoE polymorphism 1023
Of African green monkeys, effect of dietary fatty acids on 1873
Subfractions in swine with hypercholesterolema 839
Plasma membrane
Intracellular transport of LDL-derived cholesterol to, in cultured fibroblasts 103
Of living Hela cells, shape of fluidity gradient in 261
Platelet-activating factor: Analysis of by gas chromatography-mass spectrometry 719
Platelets
Composition and synthesis of glycolipids in 1645
Inhibitory effects on arachidonic acid metabolism by *trans* n-3 EPA and DHA 1241
Interaction with neutrophils 801
Pluronic L-81: In studies of transport of lipid, apoA-I, and apoA-IV in rat intestinal lymph 1613
PMA: *see* **Phorbol 12-myristate 13-acetate**
Polyisoprenols: In CHO cells 523
Polymorphism
In the promoter region of the apoA-I gene 1371
Of 1,2-dipalmitoyl-3-lauroyl- and 3-myristoyl-*sn*-glycerols 1853
Of apoA-IV in the baboon 131
Of apo[a] 603
Polyphosphoinositides: HPLC of, on hydroxylapatite 157
Polyunsaturated fatty acids
Dietary, effect of on concentration of α-tocopherol in heart and liver 2201
Dietary, modulation of arachidonic acid metabolism by 271
Post-transcriptional regulation: Of retroviral vector-transduced LDL receptor activity 2167
Postheparin plasma: Immunoassay of LPL and HTGL in 1911
Postprandial lipemia: In humans, effect of glucose ingestion 597
Postprandial lymph: Preruminant calf, lipoproteins and apolipoproteins in, at peak lipid absorption 1781
PP12: *see* **1,2-Dipalmitoyl-3-lauroyl-*sn*-glycerol**
PP14: *see* **1,2-Dipalmitoyl-3-myristoyl-*sn*-glycerol**
Pre-beta-migrating lipoproteins with apoA-I: Interconversion of with HDL 227
Preadipocyte cells: Transcriptional control of expression of LPL gene in, by growth hormone 1283
Premalignant liver: Ethionine-induced, cholesterol metabolism in 933
Primates, nonhuman: Effect of dietary fish oil on hepatic lipid metabolism 455
Prostaglandin(s)
Peroxisomal β-oxidation of 307
ω-Hydroxylation of 1477
Prostaglandin synthesis: By isolated glomeruli in diabetic rats 1219
Prostanoid synthesis: In smooth muscle cells, effects of oxidized LDL 551
Protein phosphatase: Inhibition by a protein from rat liver 919
Protein phosphatase inhibitor: From rat liver, purification and characterization 919
Proteoglycans: Human arterial, interaction with LDL 443
Psoriatic skin scales: 13(R,S)-Hydroxyoctadecadienoic acids produced by 125

R

RBP: *see* **Retinol-binding protein**
Re-esterification: Of FFA in adipose tissue, model for control of by blood flow 1423
Receptor binding
Of apoE2 (228Arg→Cys) 535
Of LDL, determination of 37
Receptor, low density lipoprotein
In rhesus monkeys, effect of cholestyramine 279
Interaction of Lp[a] species with 429
Normal binding of apoE2 (228Arg→Cys) 535
Retroviral vector-transduced regulation 2167
Regulation
Growth-dependent of monoacylglycerol acyltransferase in rat hepatocytes 2257
Of 7α-hydroxylase and HMG-CoA reductase in rat liver 2159
Of apoB secretion from HepG2 cells 2045
Of bile acid synthesis 79, 2149
Of cholesterol metabolism in ethionine-induced premalignant liver 933
Of fatty acid oxidation by hypolipidemic sulfur-substituted fatty acid analogues 1627
Of HDL receptor 1821
Of hepatic cholesterol metabolism in humans 2219
Of LDL action on HMG-CoA reductase 203
Of LDL receptor activity, retroviral vector-transduced 2167

Of LDL receptor gene expression in human lymphocytes 2067
Of LPL activity in rat brain 1307
Of LPL gene expression by growth hormone 1283
Of phospholipid biosynthesis in macrophages 1741
Of RBP mRNA in kidney and liver 1483
Of squalene epoxidase in HepG2 cells 2087
Of squalene epoxidase in rat liver 2095
Of triglyceride and phospholipid metabolism by sulfur-substituted fatty acid analogues 1627
Post-transcription of apoB secretion by rat hepatocytes 1663
Restriction fragment length polymorphism
ApoB gene, distribution in different strains of mice 467
Of the apoB gene 71
Of the apoA-I gene 1753
Restriction isotyping: Of apoE 545
Restriction map: Of apoB gene RFLPs 71
Retinoic acid
All-*trans*, identification and quantitation in human plasma 1445
13-*cis*, identification and quantitation in human plasma 1445
13-*cis*, in human serum 175
Retinoid deficiency: CRBP mRNA levels in 821
Retinol: Metabolism in rats with low vitamin A status 1535
Retinol deficiency: Block of hepatic RBP secretion in 1669
Retinol-binding protein
Internalization in parenchymal and stellate cells of rat liver 1229
mRNA, induced by estrogen in the kidney but not in the liver 1483
Plasma, ultrastructural localization in liver 1669
Retroendocytic pathway: For HDL apolipoproteins, in rat hepatoma cells 191
Reverse cholesterol transport: Report on a Meeting 2295
Review article
26-Hydroxycholesterol: synthesis, metabolism, and biologic activities 1527
Dietary influence on serum lipids and lipoproteins 1149
Dynamics of insect lipophorin metabolism 1725
Familial defective apoB-100 1337
RFLP: *see* **Restriction fragment length polymorphism**
Rhesus monkey
High- and low-responding, effect of cholestyramine treatment 279
Model of familial hypercholesterolemia 633

S

Safflower oil
Dietary, effect of on fatty acid composition of brain fatty acids 237
Dietary, effect of on rat plasma and liver triglyceride and cholesterol concentration 1809
Seminolipid: From bovine spermatozoa, characterization of by high resolution proton NMR 1073
Serine-palmitoyl transferase
Activity in cultured keratinocytes 1655
Assay of 1655
Serum lipids: Dietary influences on, a review 1149
Serum lipoproteins: Dietary influences on, a review 1149
Sitosterol
Lack of conversion to C24-bile acids in humans 1083
Metabolism in humans 1083
Sitosterolemia: And xanthomatosis, plant sterol levels in heterozygotes with 881
Size polymorphism: Of apo[a], heritability of 603
Smooth muscle cells
Arachidonic metabolism in, effects of oxidized LDL on 551
Effect of PMA on triglyceride and cholesteryl ester synthesis in 329
Solid phase extraction: Separation of lipid classes by 2285
Spectroscopy, infrared: Of polymorphic forms of PP12 and PP14 1853
Spectroscopy, raman: Of polymorphic forms of PP12 and PP14 1853
Spermatozoa, bovine: Characterization of seminolipid from, by proton NMR 1073
Sphingenine: Preparation from galactosylceramide 2291
Sphingomyelin: Degradation, effect on cholesterol oxidation 2235
Sphingosine: Preparative scale isolation of 2291
Squalene: Dietary, effect on metabolic variables of cholesterol 1637
Squalene epoxidase
Activity, regulation by cholesterol in rat liver 2095
Activity, suppression by sterols 2087
Regulation in HepG2 cells 2087
Stage-specific embryonic antigens: Sex differences in mouse kidneys, regulation by Gb4Gal-TR 2227
Stellate cells: Internalization of RBP by receptor-mediated endocytosis 1229
Sterol(s)
Effect on squalene epoxidase in HepG2 cells 2087
Oxygenated, effect of on regulation of LDL receptor mRNA expression in human lymphocytes 2067
Plant, levels in heterozygotes with sitosterolemia and xanthomatosis 881
Sterol excretion: In hypercholesterolemia-resistant rabbits 2019
Sterol regulation: Of expression of transduced LDL receptor gene 2167
Structure-function: Of apoE isoforms 1503
Subcellular fractionation:: Of human monocyte-macrophages on a metrizamide gradient 1455
Subcellular localization: Of acyl-CoA ligases 583

T

THC-CoA: *see* **3α,7α,12α-Trihydroxycoprostanoyl-CoA**
Thiobarbituric acid-reactive substances: In Cu^{2+}-oxidized LDL 1043
Thyroglobulin: Conjugate of juvenile hormone, synthesis of 354
TNF: *see* **Tumor necrosis factor**
Tobacco hornworm: Lipid transfer particle from 872
α-Tocopherol
Concentration in heart and liver 2201
RRR-, preferential enrichment in nascent VLDL from perfused livers 687
RRR-, preferential secretion in VLDL, compared to SRR-α-tocopherol 675
RRR- and SRR-, secretion in human chylomicrons 675
Transport: Of tocopherols in humans 675
Transport rate: Of apoB 361
Triacylglycerols
1,2-Dipalmitoyl-3-lauroyl- and 3-myristoyl-*sn*-glycerols, polymorphic behavior of 1853
Menhaden oil, lipolysis by pancreatic lipase 137
Natural, chiral phase HPLC of diacylglycerol moieties 1711

Triglyceride(s)
Dietary, saturated and polyunsaturated, interaction in regulating plasma LDL in the rat 1809
Hepatic, effect of dietary fish oil in lowering secretion of, in nonhuman primates 455
In VLDL, effects of fish oil on kinetics of 1549
Long chain, changes in blood lipids during overfeeding of 407
Medium chain, changes in blood lipids during overfeeding of 407
Secretion by hamster liver 1983
Serum, levels, determined by apoB signal peptide insertion/deletion polymorphisms 1255
Triglyceride clearance: In humans, effects of glucose ingestion 597
Triglyceride metabolism: Regulation by hypolipidemic sulfur-substituted fatty acid analogues 1627
Triglyceride synthesis
By cultured rat hepatocytes, effect of EPA, DHA, and oleic acid 2079
Effect of PMA on, in cultured coronary smooth muscle cells and macrophages 329
In Caco-2 cells 113
Triglyceride transfer: Determined by concentration in phospholipid surface of substrate particle 1559
Triglyceride-rich lipoproteins: Inhibition of lipolysis by apoVLDL-II in the laying hen 507
3α,7α,12α-Trihydroxy-5β-cholestan-26-oate: Synthesis and applicability of 7,7-azo analogue of 315
3α,7α,12α-Trihydroxycoprostanoyl-CoA: Peroxisomal oxidase for, in human liver 1865
Tumor necrosis factor: Injection of, effect on plasma LCAT in cynomolgus monkeys 1099
Turnover
Of apoB 567
Of HDL in spontaneous HDL deficiency in chickens 955
Of LDL in the fetal rat 747
Of VLDL triglycerides, effect of fish oil 1549

U

U937 cells: LDL-induced growth of 37
UDCA: *see* **Ursodeoxycholic acid**
UDP-galactose:globoside galactosyltransferase: In murine kidney 2227
Ultracentrifugation: Isolation of vesicular and micellar carriers of biliary lipid by 341
Ultracentrifugation, density gradient: In studies of LDL subpopulations derived from VLD and IDL 975
Ultrastructural localization: Of plasma RBP in rat liver 1669
Unsaturated fatty acids: Inhibition of oxidation in MCAD deficiency 763
Urinary bile acids: Short side chain, in CTX 1895
Urinary excretion: Of unsaturated dicarboxylic acids 763
Ursodeoxycholic acid: A primary bile acid of the guinea pig 1301

V

Very low density lipoprotein
And IDL, conversion to LDL subpopulations in FCHL 975
ApoB, nonuniform labeling of in kinetic studies 1031
ApoE, analytical IEF using immobilized pH gradients 149
ApoVLDL-II in, in the laying hen 507
Assembly and secretion by cultured rat hepatocytes, effect of EPA and DHA 2079
Beta-, processing by macrophages 1399
Effect on activity and specificity of LCAT in ABL patients 927
Hepatic, effect of alteration to apoB mRNA editing on VLDL assembly 899
Human, effect of apoE3 on metabolism of, in cultured macrophages 2133
Hypersecretion by hepatocytes from the JCR:LA-corpulent rat 1491
Labeled, in studies of metabolism of apoB in hypertriglyceridemia 361
Metabolism in rats with 13-*cis*-retinoic acid-induced hyperlipidemia 183
Metabolism, effects of dietary fish oil 1549
Nascent, from livers of cynomolgus monkeys perfused with labeled tocopherols 687
Preferential secretion of RRR-α-tocopherol in, compared to SRR-α-tocopherol 675
Production by hamster liver 1983
Reduced uptake by parenchymal cells in isotretinoin-treated rats 183
Triglyceride kinetics, effect of dietary fish oil on 1549
Uptake into the oocyte of the laying hen 507
Vesicles: Of biliary lipids, isolation by ultracentrifugation 341
Vitamin A
All-*trans*- and 13-*cis*-retinoic acid and 13-*cis*-4-oxoretinoic acid in human plasma 1445
Deficiency, metabolism of retinol in rats with 1535
Regulation of RBP mRNA in kidney and liver 1483
Turnover in rats, model for 1535
Vitamin E: Secretion in nascent VLDL by perfused livers 687
VLDL: *see* **Very low density lipoprotein**

W

Watanabe heritable hyperlipidemic rabbit: Metabolism of apoB-100 in lipoproteins 753
WHHL: *see* **Watanabe heritable hyperlipidemic rabbit**
Wolman's disease: Rat model of 1605

X

X-ray diffraction: For polymorphic forms of PP12 and PP14 1853
Xanthomatosis: And sitosterolemia, plant sterol levels in heterozygotes with 881

Y

Yeast: Strain GL7, effects of sterols on phospholipid biosynthesis 653

Z

Zucker rats: Increased α_2-adrenergic binding sites and antilipolytic effect in adipocytes of 811

NOTICE

EUROPEAN LIPOPROTEIN CLUB

9–12 September 1991 — Tutzing, near Munich, Germany

Topics: Hormonal regulation of lipoprotein metabolism. (Influence of sex, endocrine disturbances, and hormones including growth factors, cytokines, and other regulatory factors) Chairpersons: B. Angelin, M. R. Taskinen. Structural determinants of lipoprotein function. (Sequence analysis, immunologic, molecular genetics and physiocochemical approaches) Chairpersons: L. Aggerbeck, M. Rosseneu. Vessel wall-lipoprotein interactions. Chairmen: D. Bowyer, G. Schmitz. State of the Art Lecture: Lipoproteins in inflammatory reactions.

Further information and abstract forms can be obtained from the secretary: Dr. M. Rosseneu, Secretary European Lipoprotein Club, Department of Clinical Biochemistry, A.Z. St.-Jan, B 8000 Brugge (Belgium) Tel: 32 50 45 25 22; Fax: 32 50 45 22 38.
